POWER SAFE

Nova serija POWER SAFE LED projektora predstavlja Progtech-ovo inovativno rešenje za projektovanje bezbednosnih oznaka u jako osvetljenim prostorima, gde su performanse modela MINI i MID SAFE nedovoljne.

Zahvaljujući najsavremenijim LED diodama i posebno dizajniranom optičkom sistemu, POWER SAFE omogućava projektovanje različitih vrsta oznaka, prilagođenih simbola i personalizovanog teksta u crvenoj, žutoj, zelenoj, plavoj i beloj boji, kao i u više boja.

POWER SAFE poseduje istu optiku kao MINI i MID SAFE (4 tipa optike: 2 standardna i 2 široka), što omogućava da zadrži iste dimenzije pri istim visinama montaže.

Proizvod je napravljen od čelika i aluminijuma za optimalno upravljanje toplotom i izuzetnu izdržljivost. Kao i svi Progtech proizvodi, POWER SAFE dolazi sa 5-godišnjom garancijom za rad 24/7 i 100% je proizveden u Italiji.

The new series of POWER SAFE LED lamps are Progtech's innovative solution for projecting safety signs in bright environments, where MINI and MID SAFE projectors are not enough.

Thanks to the latest generation LEDs and a special designed optical system, with POWER SAFE it's possible to project all kinds of signs, custom symbols and customized writings, in red, yellow, green, blue, white and multicolor images.

Power SAFE has the same optics of MINI and MID SAFE (4 kind of optics, 2 standard and 2 wide), to replace the dimensions at the same height of installation.

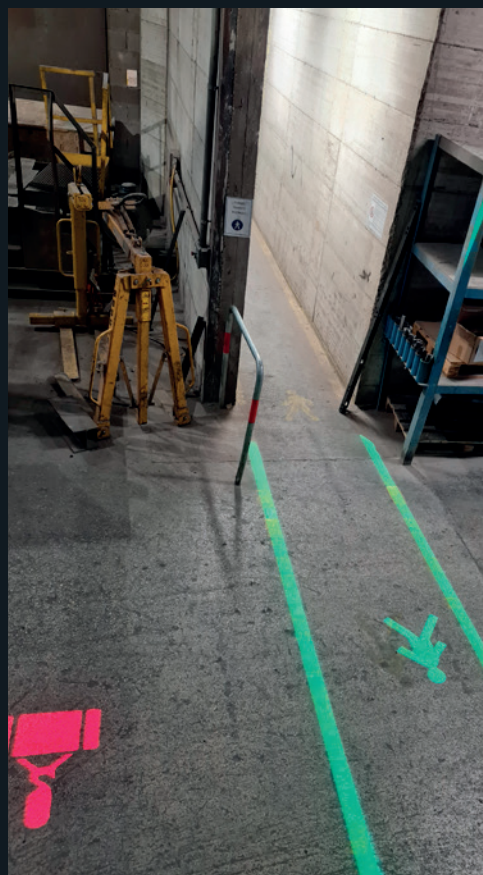

The product is made of steel and aluminum, with perfect heat resistance and for a very long life.

Like all Progtech products, POWER SAFE is guaranteed for 5 years with 24 hours a day working and it's 100% Made in Italy.
