SUPER SAFE

Nova serija SUPER SAFE LED projektora predstavlja inovativno rešenje kompanije Progtech za projektovanje bezbednosnih oznaka, čak i u veoma osvetljenim prostorima i sa velikih visina!

Zahvaljujući najsavremenijim LED diodama i posebno dizajniranom optičkom sistemu, SUPER SAFE omogućava projektovanje svih vrsta oznaka, prilagođenih simbola i personalizovanog teksta u crvenoj, žutoj, zelenoj, plavoj i beloj boji, kao i u više boja.

Raznovrsna ponuda optika omogućava projekcije velikih dimenzija (na primer, projektovanje teksta ili simbola prečnika većeg od 3 metra sa visine od 10 metara). Proizvod je izrađen od čelika, aluminijuma i bakra kako bi se obezbedilo odlično odvođenje toplote – uz pomoć integrisanog ventilatora – kao i dugotrajnost. Kao i svi Progtech proizvodi, SUPER SAFE dolazi sa petogodišnjom garancijom za rad u režimu 24/7 i u potpunosti je proizveden u Italiji.

The new series of SUPER SAFE LED lamps are Progtech's innovative solution for projecting safety signs even in extremely bright and very high environments.

Thanks to the latest generation LEDs and a special designed optical system, with SUPER SAFE it's possible to project all kinds of signs, custom symbols and customized writings, in red, yellow, green, blue, white and multicolor images.

Thanks also to different types of optics available, it is possible to create large projections: for example, from 10m height, it is possible to project writings or symbols greater than 3m in diameter.

The product is made of steel, aluminum and copper, with perfect heat resistance - thanks also to the integrated fan - and for a very long life.

Like all Progtech products, SUPER SAFE is guaranteed for 5 years with 24 hours a day working and it's 100% Made in Italy.
